**Northern Communications Group (NCG)** is a leading provider of Telecommunications and IT Networking Solutions and a Veteran-Owned Company. As a technology systems integrator and consultant, NCG will provide complete, turn-key solutions for all your Communications, IT and Infrastructure needs. Based in Colorado with two dispatch offices, NCG offers both local and nationwide services for Business, Education and Government Clients with industry vertical specializations including Healthcare, Retail, Hospitality, Real-Estate and Non-profit organizations.

## TELECOMMUNICATIONS

NCG has over 125 years of telecom systems experience on staff and provides service and support for most manufacturer systems. We offer PBX, Hybrid and VoIP communications servers and systems for single office, campus or multi-location requirements. NCG is a dealer for **Iwatsu**, **NEC**, **PhoneSuites**, **VoSKY** and a business partner with many other telecom manufacturers. Do you now require Presence,

Unified Communications, and Find-Me Follow-me functionality? NCG delivers telephony solutions that will always keep you at the forefront of communications technology.

## TECHNOLOGY CONSULTING

NCG specializes in consulting on integrated voice, data, video and IT network solutions. We partner with industry-leading companies to offer our clients the best solutions and act as your trusted advisor on projects or in an outsourced management capacity.

## IT NETWORKING

NCG's full-service IT Department provides complete IT solutions and services from client-server architectures and network security solutions to LAN/WAN infrastructure design. As a **Dell** Business Partner, NCG can provide all your computer hardware, servers and laptops, plus network firewalls, routers and switches from **Cisco**, **Juniper** and **Adtran**. Proactive maintenance plans and network security services insure your systems and mission-critical applications operate at peak efficiencies and with solid protection from internal and external attacks.

## CABLING and INFRASTRUCTURE

NCG designs and installs Cat 3, 5, 6 and Fiber cabling solutions including OSP, aerial, datacenter racking, telecom rooms and risers/backbones. Need a single cable drop or a nationwide roll-out? We can handle all your requirements with skilled project management services. For large construction projects, NCG partners with **Adesta** on nationwide cable, fiber and OSP builds.

## WIRELESS NETWORKS

Looking for 4<sup>th</sup> Gen wireless networks with single channel architectures, full-power APs and over-the-air QoS routing capabilities? NCG provides secure wireless network solutions from **Meru** for office, enterprise and campus environments.

## SURVEILLANCE SYSTEMS

NCG provides CCTV and IP surveillance camera solutions with DVRs from **Speco** and network-based monitoring systems and software from **Strand**.

## SECURITY AND ACCESS

NCG provides building access and security systems from **GE** and other manufacturers with full integration.

We work daily with our Non-Profit, Business, Education and Government clients.

How can we help your company today?
